Imagination Station Childcare and Learning Center is a family-owned learning center that has been teaching the children of Central since 2004. Our dedicated teachers provide high-quality care and education to children from the age of 6 weeks to Pre-K Four. We offer before and after care to children who have younger siblings enrolled in our program. We understand that every child is a unique individual. The most important goal of our early learning curriculum is to help children become enthusiastic learners. We use a state-recommended, high-quality curriculum to encourage children to be active and creative explorers who are not afraid to try out their ideas and to think their own thoughts. Our goal is to help children become independent, self-confident, and inquisitive learners by allowing them to construct their own knowledge. They construct their own ideas and knowledge about their world through play and social interaction and experimentation and manipulation of the learning materials. Teachers observe and plan carefully to enhance and extend the children's learning.
